

# FileMaker Go

for iPad

£ 23<sup>99</sup> UK

## Access your FileMaker Pro information anywhere you go

View, edit and search your FileMaker Pro records on your iPad with FileMaker Go. Whether you're checking inventory in the warehouse, managing event registration on-site or updating project status while traveling, you can do it all while you're on the go.

Build your databases using FileMaker Pro and then remotely access your data with FileMaker Go. Your existing FileMaker Pro layouts look amazing on the large iPad display - no modification is necessary for most solutions.

### Get your favourite FileMaker Pro features on FileMaker Go

Work with data just like you would on FileMaker Pro:

- Add, modify or delete information
- Find, sort and navigate through records
- Display data in familiar Form, Table, and List views
- View information in portals, tabs or Web Viewers
- Search for information using Quick Find
- Connect to External SQL Data Sources

### Top FileMaker Go Uses

- Conduct inventory checks while in the warehouse
- Generate sales orders at a customer site
- Track shipping and receiving activities
- Check in attendees onsite for an event
- Update project status while traveling
- Verify student class schedules in the hallway
- Add research notes while in the field
- Evaluate teacher performance in the classroom

Language - English only

### Requirements

- Compatible with iPad. Requires iOS 3.2 or later
- Requires FileMaker Pro or FileMaker Pro Advanced to create or modify databases
- Connecting to hosted databases requires FileMaker Server/Server Advanced 11 or 10 or FileMaker Pro/Pro Advanced 11 or 10

### Access your databases on FileMaker Go

There are 3 convenient ways to access your information on FileMaker Go:

1. Connect to databases hosted on FileMaker Server or FileMaker Pro via a local wireless network or over the Internet using Wi-Fi or 3G. All changes are instantly updated in the hosted file. This makes it easy to share information with a team.
2. Copy your databases between your desktop or laptop and FileMaker Go for iPad using File Sharing in iTunes. This is ideal for accessing single-user databases. (Note: While copying files is supported, synchronisation is not).
3. Copy your databases to FileMaker Go by downloading the file from email, popular file sharing sites or the web.

### Is FileMaker Go for iPad right for you?

If you answer "Yes" to the green light questions, then FileMaker Go for iPad is right for you.

	Do you own FileMaker Pro or FileMaker Pro Advanced so you can create or modify databases?
	Is the database you want to access on FileMaker Go FileMaker Pro 7 or later?*

\*While FileMaker 7 and Developer 7 are technically compatible they are no longer supported by FileMaker, Inc. Support for FileMaker Pro/Pro Advanced 8 and 8.5 ends 23rd September 2010.
